
Accessing the School and District Grades
To access the District and School Grade Report, the district homeroom administrator needs to open a district-level user account(s) for this project or authorize a new account to an existing district-level user (i.e., EVVRS, HIB-ITP) by using the homeroom administration application on the NJDOE homeroom page at http://homeroom.state.nj.us.

District-level users assigned to this project may visit the NJDOE Homeroom page, click on the link for HIB Grades Report and log in to view the document titled District and School Grade Report in PDF format. The district-level username previously assigned to HIB Grades Report is still valid if the person assigned with the district-level access remained the same. The report lists the grade for each school in the district and the grade for the school district.

Interpreting, Publicizing, and Public Review of the Grades
Interpreting — Under the Commissioner’s Program, the school grade is a raw score of data and the sum of the ratings for all indicators within each core element on the School Self-Assessment (e.g., 65 of 78 points). The maximum total score for a school is 78 points. The school district’s grade is an average of the total scores of all schools in the school district. The department issued grade is not represented as a letter grade.

The Department is not issuing any associated value or ranking for the raw and average scores. The raw and average scores reflect the school and school district’s degree of compliance with the Anti-Bullying Bill of Rights Act (ABR), as determined primarily through each school’s self-assessment of its implementation of the ABR.

Publicizing — School districts and schools must post the exact grade reports issued by the NJDOE without making any alterations to the PDF document to fulfill its responsibilities for posting the grades to the school district and school’s websites. To do this, the District and School Grade PDF document must be saved on a local computer for the district. School districts and schools may choose to replace the 2011-2013 grade report with the 2013-2014 grade report or keep both reports posted. When publicizing the school district or school grades determined under the ABR, districts and schools should not assign letter grades. The score for each core element must be reported as a number (e.g., 12 of 15 points for Core Element #1, 5 of 9 points for Core Element #2, etc.) and the grade must be reported as a number (e.g., the grade is 65 out of 78 points).

Public Review of the Grades — School district officials are required to review the district and school grades with the board of education (BOE) at a public meeting. This will provide the BOE and the public
with the opportunity to learn about the district’s implementation of the ABR and address any concerns. This information can assist in the annual review of HIB prevention programs, approaches and other initiatives, as required in N.J.S.A. 18A:37-17a, and the annual review of the BOE’s HIB policy, as required in N.J.S.A. 18A:37-15c.

When posting the grades or reporting to the BOE, district and school staff also might want to consider including the following points or language:

- “Beginning with the September 2011-2012 school year, our school district/school has conscientiously implemented the requirements found in the Anti-Bullying Bill of Rights Act by __________________________.”
- “During the first three years of implementation of the Anti-Bullying Bill of Rights Act, our school district/school has made progress in addressing and improving harassment, intimidation and bullying and the school climate and culture by __________________________.”
- “While completing the Self-Assessment, we learned that our school district/school has demonstrated strengths in these areas: __________________________.”
- “The Self-Assessment helped our school district/school to identify areas for improvement in the following areas: __________________________.”
- “Our school plans to further assess strengths and vulnerabilities for learning by conducting a school climate survey. We plan to __________________________.”
- “During the upcoming year, our school district/school will be working towards and seek your involvement in improving __________________________.”

**Posting School and District Grades**

The official 2013-2014 District and School Grade Report issued by the NJDOE on December 16, 2014 must be posted, in the original format, on the appropriate website by **January 9, 2015** (i.e., within 10 days of receipt of the grades from the NJDOE, pursuant to N.J.S.A. 18A:17-46) as follows:

- Each school must post the school’s grade and the school district’s grade on the homepage of the school’s website.
- The school district must post the school district’s grade and the grade for each school in the school district on the homepage of the school district’s website.

**The embargoed version of the District and School Grade Report is not for public release and should not be posted to district websites.**
