Announcement for Connected Action Roadmap (CAR) Regional Information Sessions

The New Jersey Department of Education, in collaboration with the Partnership for Collaborative Professional Learning, seeks to ensure equitable access to a high-quality education and postsecondary success for all students. We value a strategic and collaborative approach that connects standards-based curriculum, instruction, assessment and professional learning in a school culture that promotes an ongoing process of reflection on, and growth in, student learning.

We are partnering to collectively promote the CAR framework as a strategic and collaborative approach to developing a standards-based curriculum. To better understand the framework and learn how to take advantage of these exciting voluntary opportunities, the Department is hosting regional information sessions. The morning session will include an overview of the CAR framework and the afternoon session will include a working session for districts to engage in planning.

Registration

The links below can be used to register for any of the half-day sessions. We would like to invite you and a team (e.g., central office administration, school leader and teacher leaders) from your district to attend one of the regional meetings. If you have already attended a CAR framework meeting over the past year, your team may wish to only attend the afternoon working session. Each team member must register individually:
